

ACERA Project: 0710

1. **Project Title:** Risk perception – quarantine risks in the context of other risks

2. **Theme:** Communication and decision making

3. **Rationale:**

Individuals' "appetite" for risk varies significantly based on their knowledge of their own personal experience, risk aversion etc. This project would use surveys to explore the attitudes and approaches to quarantine risk of various stakeholders.

4. **Outputs:**

Identification and analysis of commonalities and differences in risk perception by stakeholder groups.

Advice on any improvements or changes that BA could make to improve communication and discussion of risk with stakeholders.

5. **Time frame:** 18 months
